Advanced Placement (AP) and International Baccalaureate (IB) Programs in Schools Assisted By the Office of Overseas Schools

The list of overseas schools offering AP and/or IB courses is compiled from information available in the Office of Overseas Schools. The information may change from year to year and is by no means conclusive. Therefore, the list should be used only as a **starting point** in your search. Prospective users of the schools may wish to inquire further of A/OPR/OS at OverseasSchools@state.gov, tel.: 202-261-8200, or to contact the school directly for more specific and up-to-date information regarding curriculum.

PROGRAM DESCRIPTION: College Board Advanced Placement Courses: www.collegeboard.org

About the College Board. The College Board is a mission-driven, not-for-profit organization that connects students to college success and opportunity. Founded in 1900, the College Board was created to expand access to higher education. Today, the membership association is made up of more than 5,900 of the world's leading educational institutions and is dedicated to promoting excellence and equity in education. Each year, the College Board helps more than seven million students prepare for a successful transition to college through programs and services in college readiness and college success — including the SAT® and the Advanced Placement Program®. The organization also serves the education community through research and advocacy on behalf of students, educators and schools.

Choose AP. Through AP's college-level courses and exams, students can earn college credit and advanced placement, stand out in the admission process, and learn from some of the most skilled, dedicated, and inspiring teachers in the world.

A Different Kind of Class. From the moment you enter an AP classroom, you'll notice the difference—in the teacher's approach to the subject, in the attitude of your classmates, in the way you start to think. In AP classrooms, the focus is not on memorizing facts and figures. Instead you'll engage in intense discussions, solve problems collaboratively, and learn to write clearly and persuasively.

Find Your Passion. With 34 AP courses to choose from, including Chinese Language and Culture, Environmental Science, and Psychology, you'll be able to explore your interests and discover new passions. In AP classes, you'll study fascinating topics and ideas that just might become the foundation of your future college major or career.

Prepare to Succeed in College. AP courses can help you acquire the skills and habits you'll need to be successful in college. You'll improve your writing skills, sharpen your problem-solving abilities, and develop time management skills, discipline, and study habits.

Earn College Credit and Placement. Most four-year colleges in the United States and colleges in more than 60 other countries give students credit, advanced placement or both on the basis of AP Exam scores. By entering college with AP credits, you'll have the time to move into upper level courses, pursue a double-major or study abroad.

How Do I Enroll? Once you've decided to take the AP challenge it's easy to enroll. Talk to an AP teacher or the AP Coordinator at your school about the course you want to take. Discuss the course's workload and any preparation you might need.

* Some schools only offer a limited number of AP courses which can vary from year to year.

PROGRAM DESCRIPTION: International Baccalaureate Organization: http://www.ibo.org/

The curriculum. IB Diploma Program students study six courses at higher level or standard level. Students must choose one subject from each of groups 1 to 5, thus ensuring breadth of experience in languages, social studies, the experimental sciences and mathematics. The sixth subject may be an arts subject chosen from group 6, or the student may choose another subject from groups 1 to 5. In addition the Program has three core requirements that are included to broaden the educational experience and challenge students to apply their knowledge and understanding.

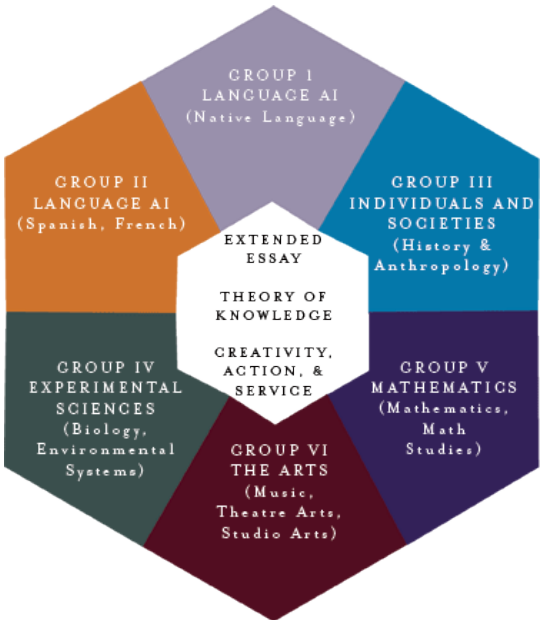
The extended essay is a requirement for students to engage in independent research through an in-depth study of a question relating to one of the subjects they are studying.

Theory of knowledge is a course designed to encourage each student to reflect on the nature of knowledge by critically examining different ways of knowing (perception, emotion, language and reason) and different kinds of knowledge (scientific, artistic, mathematical and historical).

Creativity, action, service requires that students actively learn from the experience of doing real tasks beyond the classroom. Students can combine all three components or do activities related to each one of them separately.

Assessment. Students take written examinations at the end of the Program, which are marked by external IB examiners. Students also complete assessment tasks in the school, which are either initially marked by teachers and then moderated by external moderators or sent directly to external examiners.

The diploma is awarded to students who gain at least 24 points, subject to certain minimum levels of performance across the whole Program and to satisfactory participation in the creativity, action, and service requirement. The highest total that a Diploma Program student can be awarded is 45 points.



* Some schools only offer a limited number of AP courses which can vary from year to year.
